CONGRESSMAN TAKES STAND

West Virginia Declares
United States Only Country Where
"Transportation Parastate" Is Per-
mitted to Exist—Figures Submitted
to Commissioner Lane Show Enor-
mous Dividends in Last Few Years.
Government Ownership Advanced.

New York, Nov. 23.—Frank K.
Lane of the interstate commerce
commission began an examination of
the express business of the country.
The inquiry being held at the re-
quest of 211 business organizations,
which are known as the ex-
press rates conference, and whose
chief complaint is that express rates
are unreasonable.

Commissioner Lane said: The pur-
pose of the inquiry is to deter-
mine whether the rates, rules and
practices of the express companies
are such as should come under the
regulation of the interstate commerce
commission.

Congressman a Witness.
One of the witnesses, Congressman
David J. Lewis of West Virginia, said
that the express company does not
exist outside of the United States
and is a "transportation parasite."
He said rates in this country are pro-
hibitively high, being 16 times the
rate, whereas in 10 other
countries the average express charge
is only five times the freight charge.
He thought the parcels post plan was
not practicable, as at its proposed
rate of 8 cents a pound the charge
would be five times what the ex-
press companies ask. He thinks
the government should operate the
express service, and predicts the ex-
amination of the express company.
Attorney Lyon submitted figures
which he said showed that the total
operating income of the 13 lead-
ing express companies for the past
three years was \$10,000,000 a year on
an estimated valuation of \$27,000,000.
He said the average ratio of oper-
ating income to the value of real
property and equipment was 47 per
cent, and that in the case of the
great Northern Express company
this ratio for 1909 was 882 per cent.

Women Take Their Medicine

Antagonists Prefer Jail to
Paying Fines.

London, Nov. 23.—The militant
suffragists, who were arrested to the
number of 223 at the demonstration
in the vicinity of the parliament
buildings, were brought up in Bow
court police court. Those whose
charges were brought up in Bow
court to property had been slight
and small amounts, but the
charges against more than 25
were committed for trial.

The fines imposed ranged from 10
shillings to £1, in addition to the
costs of damages, in default
of which a fortnight's imprisonment
was made the penalty.
Many of the women sentenced to
imprisonment or committed
to trial at the London sessions are
members in society as well as be-
lievers in the woman's suffrage
movement. A number of them have
been previously imprisoned owing
to their activities at demonstrations.
Many of the women were badly
scratched in their fight with the blue-
coats and scratched faces were nu-
merous among them, and several de-
scribed their entire bodies were mas-
saged.

HUSBAND SLAYER DISPLAYS EMOTION DURING HER TRIAL

Sight of Revolver Too Much
for Mrs. Patterson.

Denver, Nov. 23.—Mrs. Gertrude
Patterson was greatly disturbed over
the clicking of the revolver with
which she killed her husband. Her
usual immobility was perceptibly
shaken when George Strain's revolver
was brought into court and, in the
presence of the jury, broken and
emptied of its cartridges. Mrs. Pat-
terson nervously lifted a roll of pa-
pers from the counsel table and for
a full two minutes buried her face in
their contents, passing over them
eagerly, one at a time, until "Exhibit
A" had been duly marked by the
court stenographer and removed from
her direct line of vision. Then the
papers were dropped, her old expres-
sion of stoical indifference returned.
It was announced that the state
would produce a witness who will
tell of seeing Patterson on his knees
and the woman bending over him
with the smoking revolver at his
back. At this the eyes of the spec-
tators turned toward Mrs. Patterson.
She looked as if she had not heard
that simple recital of the death
struggle of the man who she had
killed.

Reyes Loses The First Round

Revolutionists Are Severely Whipped
by Mexican Troops.

El Paso, Tex., Nov. 23.—The first
Reyista revolt that has occurred in
interior Mexico broke out at San
Nicolas, in the state of Queretaro,
where Maximilian met his final de-
feat. The Reyistas were repulsed by
soldiers of Madero, but the loss was
heavy on both sides. Forty rebels
were taken prisoners, wounded. The
Reyistas are preparing to send an
embassy to Washington, as Madero
did a year ago, and Jose Leon del
Valle has been selected.

Governor Colquhoun ordered another
company of Texas rangers to El Paso
and the local militia company receiv-
ed orders to hold itself in readiness.

Execution of Arab Prisoners By Italian Soldiers In Tripoli

Copyright by American Press Association, 1911.

CHIEF among those who make charges of barbarous executions of prisoners against the Italian army of occupation in Tripoli are the correspondents of the New York World, the London Daily Mirror and the Berlin Lokal-Anzeiger. The dispatches of Mr. McCullagh of the World have particularly angered the Italian authorities, who have denounced them as falsifications of the facts, but the German journalist, Otto von Gottberg, says that his colleagues' statements are not strong enough. "I am not a philanthropist or a professional humanitarian," says Herr von Gottberg, who is a Prussian officer. "If a proper military court decided that thousands of non-combatants should be shot I should be the last man in the world to quarrel with such a decision. But it is a different matter when a large district is handed over to enraged soldiers with liberty to kill any native they meet. That is what happened in Tripoli."

Rockefeller's Pastor.

Cleveland, O., Nov. 23.—Acting as peacekeeper for the Baptist brotherhood committee, which is attempting to put on the lid in Cleveland, Rev. Dr. W. W. Bustard, pastor of John D. Rockefeller's church, had a hot hour's interview with Chief Kohler when the minister and several of the vice committee called to see about enforcing the saloon laws.

When Dr. Bustard presented a bundle of affidavits to Chief Kohler showing that saloons were open last Sunday, Kohler brushed them into the waste-paper basket. The minister fished them out and finally sent them to the police prosecutor. Kohler outlined his golden rule policy and compared laws to drugs to be kept on shelves and used when needed.

Dr. Bustard objected and said all laws should be enforced. "I won't arrest a lot of innocent men just to satisfy the law," said the chief. "I'm for the poor man. The rich man has plenty of protection."
"You're wrong there," said Dr. Bustard. "Rich and poor should be given the same protection."
"I guess you're just looking for a little advertising, Doc," was Kohler's reply, and the committee retired.

Pastor Who is Alleged to Have Participated in Deal Whereby Oil Magnate Secured Valuable Ore Properties by Means of Call Note, Also Given Permission to Refute Charge Made by Minnesota "Lumber Jack" Who Says He Was Swindled.

Washington, Nov. 23.—In order that he may have ample opportunity to present his version of the Mesabi ore deal to the public, the Stanley steel probe committee will extend a cordial invitation to John D. Rockefeller to appear before it and give a detailed account of the transaction from the time he acquired the property from the Merritt brothers and others to the time he transferred it to the United States Steel corporation.

If he doesn't care to come the committee will not try to force him, but hopes the public will think Mr. Rockefeller has no answer to the charges of the Merritt brothers that Mr. Rockefeller "high financed" them out of more than \$10,000,000 in less than 12 months. If it rested with O. C. Stanley, the chairman of the steel committee, a subpoena server would be on the oil man's trail. Mr. Stanley announced without the authority of the committee behind him that Mr. Rockefeller and the Rev. F. T. Gates, his charities manager, who according to the testimony helped materially to "high finance" the Merritt brothers, would be formally summoned and examined at length. But later the committee went into executive session and decided to do no such thing. So Mr. Rockefeller and the Rev. Dr. Gates will be asked if they want to appear. If they do not, that will end the matter.

Describes "Trimming" Process.

Leonidas Merritt, the brother of witness Alfred, who so graphically discoursed to the committee how he had been "trimmed" by John D. was the witness before Mr. Stanley and his associates practically all day. He made an extremely picturesque witness. He used homely language and rural explosives and at times during his testimony, particularly when describing how he was separated from his fortune by Mr. Rockefeller and the Rev. Dr. Gates, the tears rolled down his cheeks and he choked so that he could not proceed.

"Just think of it!" he cried at the climax of his testimony, as he waved his big fist in the air, "when I went to New York to see Rockefeller my brother, my friends and myself had \$20,000,000 worth of property. I got about \$420,000 from Rockefeller in loans and put up \$10,000,000 worth of securities as collateral."

"And what did you have when your four months of business dealing with Mr. Rockefeller were at an end?" inquired Representative Beall of Texas.

"I had a chance to walk from New York to Duluth on the ties—that's all," the witness replied, slamming his hand on the table.

Immediately upon the conclusion of Mr. Merritt's testimony Representative Danforth of New York made a formal motion that every word of it be stricken from the committee record. This was denied by a vote of 3 to 2.

Public Utilities Board Powerless to Investigate

An Ordinance of Council Fixing Gas Rates When the Ordinance Was Passed Prior to Creation of the Board, According to Ruling of Attorney General Hogan.

No detrimental effect upon the general operation of the new public utilities law is anticipated by state officials because of the ruling made Thursday by Attorney General Hogan, in which he held that the commission has no right to review the gas rate recently fixed by the City Council of Columbus. The question submitted and ruled upon involved only a technical point which was brought into question because of the date upon which the public utilities law and the gas rate ordinance went into effect. It does not, according to Attorney General Hogan, involve any question of the right of the Public Service Commission to review such matters or to issue orders regarding rates charged by public utilities, except in the comparatively unimportant case involved in the special inquiry.

On the other hand the Public Service Commission and many public utilities, were watching the case with intense interest because of its significance as a precedent for similar proceedings. If it had been permitted to go through to a final conclusion there would have been established a set of rulings and perhaps a court decision which would have finally determined the course to

be pursued by the commission in the future when similar cases are brought within its jurisdiction.

But the commission is powerless in the matter in the light of Attorney General Hogan's ruling. The gas rate ordinance became effective July 1. The Public Service Commission entered upon its official existence July 1, and the prior passage of the ordinance, coming before there was, technically speaking, such a thing as a public utilities law, makes it impossible for the commission to review it. In so ruling, however, Attorney General Hogan holds that the commission has no power to review rates and charges authorized by City Councils previous to the creation of the commission, thus limiting the activity of the commission to such rate ordinances as may be passed in the future.

The ruling of the attorney general disposes, effectually, of the movement to lodge a complaint against the local Gas company with the Public Utilities Board because the City Council enacted the rate ordinance long prior to the creation of the utilities board or the passage of the law creating it, thus placing the local situation squarely within the operation of the ruling just announced by the attorney general.

Dry-cleaning House Thoroughly Modern

Nowhere in this part of Ohio is there such a thoroughly equipped dry cleaning and pressing establishment as that of T. J. Hall, on Market street, opposite the court house.

At a cost of many hundreds of dollars, Mr. Hall, has installed machinery for handling his ever increasing business, and from the steam presser and kid glove cleaner down to the 6 horsepower engine, extractor, and still for distilling the dry cleaning fluid, the plant is complete.

Being thus equipped, Mr. Hall is able to handle a large amount of work in the best possible manner. By careful attention to business, and systematic advertising, Mr. Hall has built up a business of which he is justly proud, and which requires the assistance of several employees.

Mr. Hall's plant is so thoroughly equipped that he is enabled to perform any work in his line that any other concern in the state is able to do, which means that it is foolish for Fayette county citizens to send their work away.

Public Utilities Board Powerless to Investigate

An Ordinance of Council Fixing Gas Rates When the Ordinance Was Passed Prior to Creation of the Board, According to Ruling of Attorney General Hogan.

No detrimental effect upon the general operation of the new public utilities law is anticipated by state officials because of the ruling made Thursday by Attorney General Hogan, in which he held that the commission has no right to review the gas rate recently fixed by the City Council of Columbus. The question submitted and ruled upon involved only a technical point which was brought into question because of the date upon which the public utilities law and the gas rate ordinance went into effect. It does not, according to Attorney General Hogan, involve any question of the right of the

Public Service Commission to review such matters or to issue orders regarding rates charged by public utilities, except in the comparatively unimportant case involved in the special inquiry.

On the other hand the Public Service Commission and many public utilities, were watching the case with intense interest because of its significance as a precedent for similar proceedings. If it had been permitted to go through to a final conclusion there would have been established a set of rulings and perhaps a court decision which would have finally determined the course to

Thoroughly Modern

But the commission is powerless in the matter in the light of Attorney General Hogan's ruling. The gas rate ordinance became effective July 1. The Public Service Commission entered upon its official existence July 1, and the prior passage of the ordinance, coming before there was, technically speaking, such a thing as a public utilities law, makes it impossible for the commission to review it. In so ruling, however, Attorney General Hogan holds that the commission has no power to review rates and charges authorized by City Councils previous to the creation of the commission, thus limiting the activity of the commission to such rate ordinances as may be passed in the future.

The ruling of the attorney general disposes, effectively of the movement to lodge a complaint against the local Gas company with the Public Utilities Board because the City Council enacted the rate ordinance long prior to the creation of the utilities board or the passage of the law creating it, thus placing the local situation squarely within the operation of the ruling just announced by the attorney general.

Nowhere in this part of Ohio is there such a thoroughly equipped dry cleaning and pressing establishment as that of T. J. Hall, on Market street, opposite the court house.

At a cost of many hundreds of dollars, Mr. Hall, has installed machinery for handling his ever increasing business, and from the steam presser and kid glove cleaner down to the 6 horsepower engine, extractor, and still for distilling the dry cleaning fluid, the plant is complete.

Being thus equipped, Mr. Hall is able to handle a large amount of work in the best possible manner. By careful attention to business, and systematic advertising, Mr. Hall has built up a business of which he is justly proud, and which requires the assistance of several employees.

Mr. Hall's plant is so thoroughly equipped that he is enabled to perform any work in his line that any other concern in the state is able to do, which means that it is foolish for Fayette county citizens to send their work away.

Hartman theater, "The Pirates of
Penzance." The Journal states that
Miss Underwood has often been heard
before in amateur musical produc-
tions but never to such good advan-
tage and shows immense improve-
ment. Her voice has gained as well
as proficiency in her acting and her
appearance is altogether charming.
Miss Underwood is a niece of Mr.
William Manning, of this city, where
she is well known and has sung in
the local churches to the pleasure of
the congregations.

FUNERAL OF MR. JACOB STUCKEY

One of the largest funerals ever
held in Grace church was that of Mr.
Jacob Stuckey Wednesday afternoon.
Mr. Stuckey was widely known over
the county and in addition to a
very large family connection had
many warm personal friends.

People attended the funeral from
Jeffersonville, Good Hope, Bloom-
burg and an extended radius of ter-
ritory to show him honor, and to ex-
press mutely their sympathy with
his bereaved family.

Rev. T. W. Locke, of Grace church,
conducted a simple and beautiful
service, reading the hymns.

The pastor supplemented the ser-
mon with a tribute, sincerely appre-
ciative of the kindly man, the warm-
hearted friend, and beyond all else,
the devoted husband and father.
Especially beautiful was the minis-
ter's simile of the flowers, attaining
perfection through a process of cul-
ture to the growth and expansion of
the human soul.

There was a profusion of beautiful
flowers heaped on the casket and
banked around it. In addition to the
large number of floral tributes from
friends there were two casket sprays
from Stutson's store and a spray of
Chrysanthemums and snap-dragons
from the W. R. C.

The ladies of the circle of the G.
A. R. held their impressive flag ser-
vice at the residence at ten o'clock
in the morning.

The final services were held at the

Washington cemetery, the burial be-
ing in the family lot.

Acting as pall-bearers were Hon.
C. A. Reid, Messrs. Henry Robinson,
Adam Beck, W. O. Reid, Peasley
Stokesbury and Simon Stuckey, of
Bloomburg.

CARD OF THANKS.

Fearing that in the individual ex-
pression of thanks some one might
be overlooked, Mr. John Sutherland
and family wish to express through

LADY MACCABEES

INITIATION AND BANQUET

Wednesday night witnessed an in-
teresting initiation, followed by a
banquet, of Payette Hive, Ladies of
the Maccabees, in their hall.

There was a very large attendance
of members and the evening was a
thorough success.

The degree team from Chillicothe
evemplified the work, which is ex-
tremely pretty and was done in
splendid form.

Mrs. Myra Davidson, deputy great
commander, had charge of the initi-
atory work.

There were nine candidates, Mrs.
Floyd Wilt, Mrs. Morris, Mrs. Harvey
Tracey, Mrs. I. C. Jones, Mrs. Upp,
Mrs. Davis, Mrs. Albert Baum, Mrs.
Elizabeth Horton, Miss Nellie Bishop.

At the close of the review an ele-
gant banquet was served and a re-
ception held for new members and
visitors.

Another class will be initiated in
December.

SOCIETY

A tower of Southern smiles surrounded by a full galaxy of friends, with whom both bride and groom have been acquainted, as well as relatives and friends, the wedding of Miss Millikan, youngest daughter of Mr. W. W. Millikan, and Mr. Spragg, plighted their vows at half past seven on Wednesday evening.

Now brides have been more feted than the lovely girl who walked to the altar and the wedding was the occasion of an unprecedented number of charming bridal affairs, which friends vied to do her honor.

It was a beautiful home wedding, held in all its appointments. The home, with its buff mural paintings, lent itself admirably to the decorations of green and white carried out in a profusion of ferns and yellow chrysanthemums.

At the hands of the clock approached the appointed hour, Mrs. Craig struck the summoning gong of the wedding march, Miss Welshmer, of Columbus, and Miss Jean Howat drew the ribbon which formed the path for the party to the improvised altar, the overhanging garlands.

The pretty young niece of the bride, Miss Aileen Hess, in white tulle and yellow and white snapdragons, preceded the matron of honor, the bride's sister, Mrs. Fuller. Dr. Loring Brock attended the bridegroom in the capacity of best man.

The bride entered on the arm of her father, who gave her away. Typically bridal and very beautiful she looked in her snowy robes. Her gown was an exquisite creation of tulle, brussels points, antique maline and crocheted silk elements. Fastened to a dainty top of brussels points antique lace and orange blossoms a long tulle veil fell over her train and she carried a magnificent shower bouquet of white roses and lilies of the valley.

Mrs. Hess was a stunning matron in honor in her own wedding gown of white tulle and pink brocade, trimmed in crystal fringe and diamanté.

Her bouquet was a rosegay of red roses and maiden-hair fern. Rev. William Irwin Campbell, of the Presbyterian church performed an impressive ring ceremony. Immediately after the ceremony 125 guests were seated and served with a handsome wedding supper.

The younger guests were with the bride and bridegroom in the dining room, where yellow candles shed a soft glow.

The bridal table made a picture, with graceful centerpiece of yellow chrysanthemums and red and tall crystal candlesticks and yellow shades. It was a merry party. Miss Jean Howat found the ring. Mr. Jess Smith the best man and Mrs. Walter Craig the

thimble. Mrs. Louise Stutson Potter caught the bride's bouquet.

After the supper the guests lingered, enjoying the wedding reception to the fullest extent.

In the receiving line with Mr. and Mrs. W. W. Millikan were Miss Dora Hays, Mr. Fuller Hess and Mr. and Mrs. James Rusk, of Zanesville.

Mrs. Millikan was handsomely gowned in heliotrope marquisette over white satin, with heliotrope and crystal trimmings. Miss Hays wore white marquisette trimmed in baby Irish. Mrs. Rusk was wearing a superb gown of blue spangled net over chantilly lace and gold meteor satin.

A number of extremely handsome gowns were in evidence.

An attractive feature of the wedding reception was the quartet of November brides, Mrs. Roy Reeves, Mrs. Perce Ballard and Mrs. Perce Harlow, all wearing their wedding gowns with the bride of the evening.

The wedding gifts displayed in an upper room, were superb, and in great number.

Mr. and Mrs. Spragg left on the evening train for a short wedding trip.

Upon their return they will make their home for the present with the bride's parents.

Mr. Spragg, who has been connected with the Imperial Hotel for several years, has a host of outside friends who join with Washington friends in the shower of good wishes extended to him and his bride.

Among the guests from out of town were Mr. and Mrs. A. P. Rusk, Mr. and Mrs. James Rusk, Misses Louis Hopp, Ben Bailey, Zanesville; Mr. and Mrs. L. Buckmaster, Mr. and Mrs. Roy Reeves, Mrs. Ralph Rarey, Columbus; Mrs. Letitia Bonham, Mr. Scott Bonham, Cincinnati; Miss Stephanie Prager, Roswell, New Mexico; Mr. and Mrs. Harley Boatwreck, Mt. Sterling; Miss Maude Welshmer, Columbus; Mrs. Lucian Wells, of Graham, Va.

KITCHEN GARDEN IN NEW QUARTERS.

The Kitchen Garden association is beginning its active fall and winter work with headquarters in the basement room in the Murray block, directly below Chas. H. Murray's undertaking establishment on Court street.

The headquarters will be open every Tuesday and Friday afternoon from two o'clock until six. All work formerly carried on from the home of Mrs. H. H. Sanderson will be taken charge of here.

The co-operation of all individuals or societies interested in this branch of philanthropy is asked in order that work may not be duplicated and that the most efficient service may be rendered.

With the sudden coming of cold weather the Kitchen Garden Association would very much appreciate donations of underwear. In many homes there is underwear cast aside because it is partially worn or outgrown and which would be a boon to the thinly clad. The women of the Kitchen Garden are fully in touch with the needs of the city poor and can relieve suffering far more wisely than the indiscriminate giver.

Donations may be left at Kitchen Garden headquarters, or if reported to 166 Citizens' phone they will be called for.

C., and Philadelphia, Pa., where she will spend several weeks with school friends before joining her mother in New York for the holidays. Mrs. Louise Potter and Miss Janet Stutson accompanied her as far as Columbus.

This morning's Columbus Journal gives very flattering mention of Miss Margaret Underwood, one of the principals in the first amateur performance of the season in the new Hartman theater, "The Pirates of Penzance." The Journal states that Miss Underwood has often been heard before in amateur musical productions but never to such good advantage and shows immense improvement. Her voice has gained as well as proficiency in her acting and her appearance is altogether charming.

Miss Underwood is a niece of Mr. William Manning, of this city, where she is well known and has sung in the local churches to the pleasure of the congregations.

FUNERAL OF MR. JACOB STUCKEY

One of the largest funerals ever held in Grace church was that of Mr. Jacob Stuckey Wednesday afternoon. Mr. Stuckey was widely known over the county and in addition to a very large family connection had many warm personal friends.

People attended the funeral from Jeffersonville, Good Hope, Bloomington and an extended radius of territory to show him honor, and to express mutely their sympathy with his bereaved family.

Rev. T. W. Locke, of Grace church, conducted a simple and beautiful service, reading the hymns.

The pastor supplemented the message with a tribute, sincerely appreciative of the kindly man, the warm-hearted friend, and beyond all else, the devoted husband and father.

Especially beautiful was the minister's simile of the flowers, attaining perfection through a process of culture to the growth and expansion of the human soul.

There was a profusion of beautiful flowers heaped on the casket and banked around it. In addition to the large number of floral tributes from friends there were two casket sprays from brothers and sister, wreath from Stutson's store and a spray of Chrysanthemums and snapdragons from the W. R. C.

The ladies of the circle of the G. A. R. held their impressive flag service at the residence at ten o'clock in the morning.

The final services were held at the

Washington cemetery, the burial being in the family lot.

Acting as pall-bearers were Hon. C. A. Reid, Messrs. Henry Robinson, Adam Beck, W. O. Reid, Peasley Stokesbury and Simon Stuckey, of Bloomington.

CARD OF THANKS.

Fearing that in the individual expression of thanks some one might be overlooked, Mr. John Sutherland and family wish to express through the Daily Herald their sincere gratitude to the many friends who extended the illness and death of Mrs. Sutherland, especially to the P. Hagerty Shoe Co., and its employees.

GUILD KENSINGTON.

About fifty women found the Presbyterian Guild Kensington, with Mrs. George Jackson and daughter, Miss Emma, hostesses, one of much pleasure Wednesday afternoon.

A dainty refecton followed an afternoon of needlework and sociability.

FOOTBALL VICTORY.

The Washington High school football team defeated the Mt. Sterling team on Millikan field Wednesday afternoon by a score of 26 to 0.

It was a good, clean game, in which the local team showed the results of their recent practice Saturday W. C. H. plays Wilmington.

The final services were held at the

LADY MACCABEES

INITIATION AND BANQUET.

Wednesday night witnessed an interesting initiation, followed by a banquet, of Fayette Hive, Ladies of the Maccabees, in their hall.

There was a very large attendance of members and the evening was a thorough success.

The degree team from Chillicothe exemplified the work, which is extremely pretty and was done in splendid form.

Mrs. Myra Davidson, deputy great commander, had charge of the initiatory work.

There were nine candidates, Mrs. Floyd Wilt, Mrs. Morris, Mrs. Harvey Tracey, Mrs. I. C. Jones, Mrs. Upp, Mrs. Davis, Mrs. Albert Baum, Mrs. Elizabeth Horton, Miss Nellie Bishop.

At the close of the review an elegant banquet was served and a reception held for new members and visitors.

Another class will be initiated in December.

THE FEW.

In these days the American people hear and read a vast amount about "the few" and "the many".

The rights of the latter and the oppressions of and the benefits received by the former at the latter's expense.

Many people are inclined now to think that there is much capital made by designing demagogues of these facts and the expressions relating to these facts. Many may be found who believe absolutely in the power of the many, but few believe in the ability of the many to exert that power in their own behalf.

In support of their doubt of that ability, which, if it existed, would bring about an ideal condition, these "doubting Thomases" call attention to the various organizations of society including private as well as public, and to the fact that there are always in all organizations, whether for profit or not the few who go ahead and the many who remain passive or follow the leaders.

In every city, large and small, it is asserted, and with much force too, there are a few men who run things—a few men who take the lead and break through the barriers of diffidence and accomplish things. These are not political bosses who are, as a rule, the mere understrappers for the men who direct affairs. They make the noise, but the guiding hands are rarely found attached to their arms.

With all this money making and political talk about the rights of the many and the licenses of the few, there are many who seriously doubt that the ideal time has yet come when the many may be welded together, and as one concrete mass, enabled to insist upon their rights and by patient and consistent endeavor work out those rights and maintain them in practical form.

History shows us that once in a number of years the people rebel and take matters into their own hands, but that almost immediately after exercising that power they drift back into the same disorganized force and play at follow the leader once more, until another awakening is compelled.

Stop the fight!

By no means. The time will come when education and material prosperity having clothed the masses with the requisite amount of independence of thought and action that the power to run things with which they are now vested, will be continuously and not spasmodically asserted by the many.

Until that time arrives we will have the few and the many in the same relation which they have maintained toward each other for ages, the same old struggle by the latter recurring perhaps more frequently and more violently until the ideal time does arrive.

Just now the many are decidedly on the aggressive and the few have been stepping pretty lively for an unusually long time. The setting back into the old order of things by the many has been so long delayed in this uprising that it is getting very decidedly on the nerves of the few.

AS TO QUEER NAMES.

The man from Punxsutawney and the man from Kokomo. Discussed the Chinese trouble, and the first said, "Don't you know."

I think these Chinese names are queer enough to stop a clock. "That's right," replied another man from fair Caucomogee.

The man from Kokomo observed, "By ginger! that's a fact. That's what my brother says—he lives down here in Hackensack."

And still another stranger said the man's comment was true; And added with a smile of pride, "My home's in Kalmazoo."

Another man took up the strain. "Now, down Showhegan way And up at Ypsilanti we speak it every day."

The names are all uncivilized and heathen in their ring. That's what I told my uncle yesterday in Ishpeming.

"Hohokus is my native town," another stranger said. "And I think all these Chinese names the worst I ever read."

"Quite true," agreed a quiet man; "they're certainly uncanny. That's what my neighbors all assert in Tall Holt, Indiana."

USE MACHINES FOR JUDGING

Method Recently Devised Would Seem to Put End to All Possible Controversy.

For registering the results of athletic contests, the human eye and voice sometime seem painfully inadequate. Close contests of this kind are now judged in some parts of the world by judging machines.

One such device, the invention of an Austrian, is designed to be placed at the finish line in a running race, and consists of a light metal frame partitioned into two or more divisions, each about four feet wide. On top of the frame stands a small cabinet containing numbered divisions corresponding to the numbers of the tracks.

The instant the first man passes through his division a shutter falls, disclosing his track number. The other numbers are immediately locked, except when the machine is set for final heats. In this case a small cylinder is attached to the machine, and a hammerhead strikes a mark on the revolving cylinder as the men finish. Thus the exact positions of all competitors can be told to a nicety.

The same inventor has originated an automatic judging machine for bicycle races. It consists of fine light metal strips placed in a small trench about two inches wide, which is sunk across the track at the finish.

During the last lap these strips, which are coated with enamel, are placed in position by means of a lever, and the first wheel to cross receives five marks. In crossing, however, it displaces one of the strips, and the next wheel, therefore, receives only four marks, and so on.—The Sunday Magazine.

RELIEF FOR AGED HORSES

Effective Efforts Put Forth to Secure Humane Treatment for Friend of Man.

One of the pleasant signs of the times is the growing disposition, manifested in many quarters and through many agencies to remember the ancient proverb, that "a merciful man will be merciful to his beast."

In its efforts to bring about the humane disposal of old or worn-out horses the Boston work horse parade association is meeting with encouraging success, the Globe of that city says, and it believes that disabled or superannuated horses, especially such as are owned by large concerns and by city governments, ought not to be sold.

Many of the larger corporations never sell an old or worn-out horse; others see that they fall into good hands when they dispose of them, and still others graduate their horses to lighter work as equine old age comes on.

There is an old-age pension scheme for horses in this country. In several European countries the problem is solved by eating the horse—a more compassionate method of treating him than keeping him at work until he drops in his tracks. "I that am cruel am yet merciful," said the Moor of Venice.

"Krapen," a Great Oxen Race.

Near the eastern end of Java is a small island called Madura, the inhabitants of which are much addicted to sport. Every year they hold a great race for oxen known as the "Krapen," which is looked forward to with the utmost excitement, as a great deal of money changes hands over the result. The oxen used are magnificent beasts, and are decorated in a very striking fashion.

The driver sits on a small piece of plank, and from this lowly and precarious position guides and encourages his steeds. At a given signal the great brutes leap forward, racing for all they are worth, and traveling a good deal faster than one would expect. The victorious driver receives a handsome sum of money, and huge crowds always assemble to witness the contest.—Wide World Magazine.

An Inquiring Spirit.

"Liquor," said the Experienced Cop, "surely gives a man a peculiar way of looking at things. Last night I was patrolling my beat through a side street when I saw a drunk backed up against a railing, and smiling cheerfully at a half dozen young hoodlums who were pretending to josh him, while in reality they were going through his pockets. They beat it as soon as I hove in sight. 'Say,' I said to the drunk, 'don't you know that those hoodlums were going through you?' 'Sure I know it,' said the drunk; 'I just wanted to see how far the darned little rascals would go. Here's where I've got the laugh on them—I've got \$500 in my inside vest pocket, and they never guessed it!'"

Unfamiliar Commodities.

"Any book in particular, sir?" asked the young woman in charge of the book counter of a large department store. "This is a great novel—" "Not for me," said the old gentleman, who had been examining the stock in trade with an air of considerable disapproval. "I'm looking for something less ephemeral. Where do you keep the classics, young woman? Lamb's 'Tales' for example?" The young woman looked puzzled.

"Bacon?" said the old man. "Crabbe? Fox?" "I don't know about fox," said the young woman, "but I guess what you must be lookin' for is in the provision department."—Youth's Companion.

Threatens Death Penalty.

Yuan, in addition to his preparations to crush the rebellion with the military now threatens death for any revolutionary actions and severe penalties for persons who even discuss the revolution. It is reported that he has succeeded in squelching the proposed convention which was to consider the future form of government for the country.

The meetings of the foreign ministers daily are causing constant rumors of foreign intervention.

Rumors are current to the effect that an attempt was made to assassinate Yuan Shih Kall, but details of the incident are suppressed.

FIERCE FIGHT RAGES

Imperial General Killed in Attack on Hankow.

Hankow (via Wu Hu), Nov. 23.—The fighting is now the fiercest that has yet occurred, and the firing is more deadly. An imperial general has been killed and the casualties on both sides have been extremely numerous. Foreigners are very indignant over the lack of protection for the concessions, which are in danger of being attacked by either of the combatants.

The British are appealing to Sir John Newell Jordan, the minister at Peking, for troops. They say that their subjects everywhere between Hankow and Szechuen are in the gravest peril.

Expect Attack Tomorrow.

Shanghai, Nov. 23.—The attack on Nanking has not yet begun. The delay is attributed to the unexpected loyalty of Chang Hsun, the commander of the imperial forces there, who has put up a strong defense. Rebel troops are now on the way from Chin Kiang to Nanking, and an attack on the city is expected tomorrow.

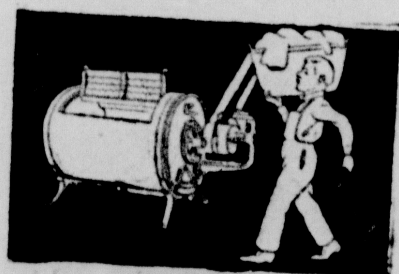

One American Escaped.

Peking, Nov. 23.—The extent of the massacre at Sian Fu is not yet fully cleared up, but it seems not to have exceeded what has already been reported, the death of Mrs. Beckman, an American school teacher, and five foreign children; a German in the Chinese mail service and a number of Chinese girls who were attending Mrs. Beckman's school. Mr. Beckman was wounded, but managed to escape with his child.

SAGE TEA WAS USED BY OUR GRANDMOTHER

It is easier to preserve the color of the hair than to restore it, though it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and the dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair and are fast following suit.

The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur Hair Remedy. As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers.

This remedy is sold under guarantee that the money will be refunded if it fails to do exactly as represented.

If your hair is losing color or coming out, start using Wyeth's Sage and Sulphur today, and see what change it will make in a few days.

This preparation is offered to the public at fifty cents a bottle, and recommended and sold by all druggists. Special agent, Brown's Drug Store.

Woman Suffrage Means Co-operation Between the Sexes

By Mrs. EMMELINE PANKHURST, English Militant Suffragette. Now in America

ARE women really free in this home of liberty and freedom? No; women ARE NOT FREE. Women are still in POLITICAL and SOCIAL BONDAGE the world over.

So long as women have not the power to help themselves men are responsible for it, and it is an awful responsibility. Women may not be able to improve matters when they get the vote, but if they fail then the responsibility will be upon themselves. Men will be relieved.

THEY SHOULD BE TRUE TO TRADITIONS AND TRY TO EMANCIPATE THE OTHER HALF OF HUMANITY AND TRY THE EXPERIMENT OF CO-OPERATION ON EQUAL TERMS WITH MEN AND WOMEN.

Interlacing Business of the Nations Will Shackle War

By WINSTON CHURCHILL, British Home Secretary

THE nations today find themselves bound together, interlaced and interwoven one with another, by the tenacious network of trade interests, of commercial transactions, of intercommunication, or reciprocal insurance and of friendly connection.

They find themselves standing upon the DIZZY and PRECARIOUS PLATFORM of INTERNATIONAL CREDIT and complex artificial industry, a platform which, were it to collapse or be violently overturned, would produce consequences which no man and no monarch can foretell.

Effective Efforts Put Forth to Secure Humane Treatment for Friend of Man.

One of the pleasant signs of the times is the growing disposition, manifested in many quarters and through many agencies to remember the ancient proverb, that "a merciful man will be merciful to his beast."

In its efforts to bring about the humane disposal of old or worn-out horses the Boston work horse parade association is meeting with encouraging success, the Globe of that city says, and it believes that disabled or superannuated horses, especially such as are owned by large concerns and by city governments, ought not to be sold.

Many of the larger corporations never sell an old or worn-out horse; others see that they fall into good hands when they dispose of them, and still others graduate their horses to lighter work as equine old age comes on.

There is an old-age pension scheme for horses in this country. In several European countries the problem is solved by eating the horse—a more compassionate method of treating him than keeping him at work until he drops in his tracks. "I that am cruel am yet merciful," said the Moor of Venice.

"Krapen," a Great Oxen Race.

Near the eastern end of Java is a small island called Madura, the inhabitants of which are much addicted to sport. Every year they hold a great race for oxen known as the "Krapen," which is looked forward to with the utmost excitement, as a great deal of money changes hands over the result. The oxen used are magnificent beasts, and are decorated in a very striking fashion.

The driver sits on a small piece of plank, and from this lofty and precarious position guides and encourages his steeds. At a given signal the great brutes leap forward, racing for all they are worth, and traveling a good deal faster than one would expect. The victorious driver receives a handsome sum of money, and huge crowds always assemble to witness the contest.—Wide World Magazine.

An Inquiring Spirit.

"Liquor," said the Experienced Cop, "surely gives a man a peculiar way of looking at things. Last night I was patrolling my beat through a side street when I saw a drunk backed up against a railing, and smiling cheerfully at a half dozen young hoodlums who were pretending to josh him, while in reality they were going through his pockets. They beat it as soon as I have in sight. 'Say,' I said to the drunk, 'don't you know that those hoodlums were going through you?' 'Sure I know it,' said the drunk; 'I just wanted to see how far the damned little rascals would go. Here's where I've got the laugh on them—I've got \$500 in my inside vest pocket, and they never guessed it.'"

Unfamiliar Comedienne.

"Any book in particular, sir?" asked the young woman in charge of the book counter of a large department store. "This is a great novel!" "Not for me," said the old gentleman, who had been examining the stock in trade with an air of considerable disapproval. "I'm looking for something less ephemeral. Where do you keep the classic, young woman? Lamb's 'Tales' for example?" "The young woman looked puzzled. 'Lamb's?' said the old man. 'Cubber?'

"I don't know about that," said the young woman, "but I guess what you want is better far in the present day."

"That's it," said the old man. "Cubber?'

"I don't know about that," said the young woman, "but I guess what you want is better far in the present day."

"That's it," said the old man. "Cubber?'

"I don't know about that," said the young woman, "but I guess what you want is better far in the present day."

Threatens Death Penalty.

Yuan, in addition to his preparations to crush the rebellion with the military now threatens death for any revolutionary actions and severe penalties for persons who even discuss the revolution. It is reported that he has succeeded in squelching the proposed convention which was to consider the future form of government for the country.

The meetings of the foreign ministers daily are causing constant rumors of foreign intervention.

Rumors are current to the effect that an attempt was made to assassinate Yuan Shih Kall, but details of the incident are suppressed.

FIERCE FIGHT RAGES

Imperial General Killed in Attack on Hankow.

Hankow (via Wu Hu), Nov. 23.—The fighting is now the fiercest that has yet occurred, and the firing is more deadly. An imperial general has been killed and the casualties on both sides have been extremely numerous. Foreigners are very indignant over the lack of protection for the concessions, which are in danger of being attacked by either of the combatants.

The British are appealing to Sir John Newell Jordan, the minister at Peking, for troops. They say that their subjects everywhere between Hankow and Szechuen are in the gravest peril.

Expect Attack Tomorrow.

Shanghai, Nov. 23.—The attack on Nanking has not yet begun. The delay is attributed to the unexpected loyalty of Chang Hsun, the commander of the imperial forces there, who has put up a strong defense. Rebel troops are now on the way from Chin Kiang to Nanking, and an attack on the city is expected tomorrow.

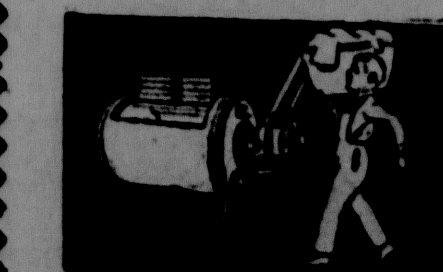

One American Escaped.

Peking, Nov. 23.—The extent of the massacre at Shan Pu is not yet fully cleared up, but it seems not to have exceeded what has already been reported, the death of Mrs. Beckman, an American school teacher, and five foreign children; a German in the Chinese mail service and a number of Chinese girls who were attending Mrs. Beckman's school. Mr. Beckman was wounded, but managed to escape with his child.

SAGE TEA WAS USED BY OUR GRANDMOTHER

It is easier to preserve the color of the hair than to restore it, though it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and the dark, glossy hair long after mid-life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for the hair and are fast following suit.

The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur Hair Remedy. As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers.

This remedy is sold under guarantee that the money will be refunded if it fails to do exactly as represented.

If your hair is losing color, coming out, start using Wyeth's Sage and Sulphur today, and see what change it will make in a few days.

This preparation is offered to the public at fifty cents a bottle, and recommended and sold by all druggists. Special agent, Brown's Drug Store.

Woman

OF COURSE EVERY woman's and every man's greatest desire is for happiness. That is a blanket wish that covers all other wishes, and every other wish is simply a means to that end.

But if a good fairy should suddenly appear, as in the old nursery tale, and offer Every Woman her three requests of the gods, it doesn't take any prophetic to tell what she would ask. She would ask, without even stopping to debate the question, to be supernally beautiful, incredibly rich, and romantically and passionately loved, because to the feminine fancy to be a living picture, a millionaires, and an affinity fills the cup of bliss so full it slushes over.

Yet the gratification of none, nor all of three wishes, would make a woman happy unless they could be backed up by two more wishes—one that they might be made eternal, and the woman's interest in them might not pall. It were folly to ask for beauty unless it could be made perpetual, as, alas, it cannot be in this changing life. No agony can be greater than that of the woman who sees the years steal the bloom from her cheek, the luster from her hair, the brilliance from her eyes, and knows herself powerless to prevent the ravages of age. It is better to have been born homely than to have to listen to people tell you how you have faded.

Nor is there any tragedy more complete than that of the woman, who, having had great wealth, loses it and is reduced to poverty, unless it is that of the woman who has nothing but money and who starves in the midst of her gold for real love, real friends, real interests in life.

The wish to be loved of all of the average woman's three wishes would come nearest to bringing her happiness were it gratified, but even that would need to be accompanied by a large bill of particulars and specifications, such as (a) must be loved by the one particular HE; (b) love must be of the special variety that suits my taste; (c) the temperature of love must always be at the boiling point; (d) love must never falter, but must be good for as much poetry when I am fat and forty and when I am slim and twenty, and must be guaranteed to be water tight and weather proof and not to be affected by my temper, nor curl papers nor wrappers nor leathery steaks and heavy biscuits; (e) love must have enough ginger in it to keep my appetite for it perpetually keen, so I won't tire of a daily diet of too much sweets.

Now to my thinking if a woman were given three wishes she should ask:

For good health.
For a genius for little things.
To love.

To have health means to possess beauty of a type that does not fade. It also includes good nature, because practically all irritability and ill-temper are caused by shaken nerves, and it assures its happy possessor an unending fountain of enjoyment and pleasure, since whether life is worth living or not, depends entirely upon the liver.

It is the mentally and physically diseased women who fill the divorce courts, and burden the air with their lamentations over being forsaken and neglected by their husbands and sweethearts. The woman who has good health holds her own.

Next to the good health I should wish, being a woman, for the genius for small things—to be eternally interested in small-beer gossip—what the neighbors next door have for dinner; how many ruffled petticoats Mrs. Smith has in wash; to be thrilled to my marrow about the cut of a sleeve or the hang of a skirt; to be able to be utterly absorbed in my own house, my own church, my own Browning society. And, above all, I should pray the gods to grant me that I might always think my particular John the oracle of the world.

Then I should ask to love. For a woman not to have been loved is a misfortune, but for her not to love is a tragedy. She may weary of the noblest love of the noblest heart; she may find a thousand imperfections in the most chivalrous lover, but her own love knows no tiring, and it glids the meanest object and turns it into a god. In love and in service to the adored one, a woman finds her highest happiness; and, if she has of her own a man and a child on whom to lavish her affections, she does not need to ask anything else of fate. She has all wishes bunched in one.

CORN DODGERS—Corn dodgers should be made from the soft, ground, white corn meal. Mix three cupfuls of meal with a teaspoonful of salt, then add just enough actually boiling water to make a stiff paste. Quickly mold into oval cakes, lay well apart in greased pans, drop a bit of butter on top of each and bake crisp and brown in a quick oven. Serve very hot.

EGGS STEWED WITH ONIONS—Select the small white onions, peel one quart, parboil for five minutes, then drain, cover with equal quantities of water and milk and simmer very gently until tender, allowing the liquid to evaporate until but little is left. When done turn them into a pint of white sauce, add six hard boiled eggs cut in quarters and simmer gently for ten minutes. When in the serving dish sprinkle with chowder sauce.

Pomeroy Succeeds Foote On Board

Ohio State Board of Commerce Elects New Officers.

Columbus, O., Nov. 23.—Adoption of resolutions in regard to the making of a new constitution for Ohio, the reading of the president's annual address, largely devoted to that subject, and adoption of resolutions favoring 1-cent letter postage, also a chance to permit corporations to report on the federal corporation tax for their fiscal year, made up the business transacted at the annual meeting of the Ohio state board of commerce.

The annual election resulted in the choice of George E. Pomeroy of Toledo as president, succeeding Allen Ripley Foote of Columbus; J. E. Brown of Mansfield as vice president, and C. D. Firestone of Columbus as treasurer.

Mr. Foote will be elected as chairman of the executive committee. The organization has no secretary. While Mr. Foote retires as president, he will continue to be its guiding spirit. His annual address was largely devoted to the question of constitution making and contained many suggestions in regard to the framing of the new fundamental law. Popular election of all officials exercising legislative or executive powers, regulation of public service corporations, a state merit system, punishment for publishing or circulating false or misleading statements, educational qualifications for the suffrage, taxation reforms and other subjects will be treated at length.

Woman

OF COURSE EVERY woman's and ev-
ery man's greatest desire is for hap-
piness. That is a blanket wish that
covers all other wishes, and every
other wish is simply a means to that
end.

But if a good fairy should suddenly
appear, as in the old nursery tale,
and offer Every woman her three re-
quests of the gods, it doesn't take any
prophetic to tell what she would ask.
She would ask, without even stop-
ping to debate the question, to be su-
perbly beautiful, incredibly rich, and
romantically and passionately loved,
because to the feminine fancy to be
a living picture, a millionnaire, and
an affinity, fills the cup of bliss so
full it slushes over.

Yet the gratification of none, nor all
of these wishes, would make a woman
happy unless they could be backed up
by two more wishes—one that they
might be made eternal, and the wo-
man's interest in them might not pall.
It were folly to ask for beauty unless
it could be made perpetual, as, alas, it
cannot be in this changing life. No
agony can be greater than that of the
woman who sees the years steal the
bloom from her cheek, the luster from
her hair, the brilliance from her eyes,
and knows herself powerless to pre-
vent the ravages of age. It is better
to have been born homely than to have
to listen to people tell you how you
have faded.

Nor is there any tragedy more com-
plete than that of the woman, who,
having had great wealth, loses it and
is reduced to poverty, unless it is that
of the woman who has nothing but
money and who starves in the midst
of her gold for real love, real friends,
real interests in life.

The wish to be loved of all of the
average woman's three wishes would
come nearest to bringing her happi-
ness were it gratified, but even that
would need to be accompanied by a
large bill of particulars and specifica-
tions, such as (a) must be loved by
the one particular HE; (b) love must
be of the especial variety that suits
my taste; (c) the temperature of love
must always be at the boiling point;
(d) love must never falter, but must
be good for as much poetry when I am
fat and forty and when I am slim and
twenty, and must be guaranteed to
be water tight and weather proof and
not to be affected by my temper, nor
curl papers nor wrappers nor leathery
steaks and heavy blouses; (e) love
must have enough ginger in it to keep
my appetite for it perpetually keen,
so I won't tire of a daily diet of too
much sweets.

Now to my thinking if a woman
were given three wishes she should ask:

For good health.
For a genius for little things.
To love.

To have health means to possess
beauty of a type that does not fade.
It also includes good nature, because
practically all irritability and ill-
temper are caused by shaken nerves,
and it assures its happy possessor an
unending fountain of enjoyment and
pleasure, since whether life is worth
living or not, depends entirely upon
the liver.

It is the mentally and physically
diseased women who fill the divorce
courts, and burden the air with their
lamentations over being forsaken and
neglected by their husbands and
sweethearts. The woman who has
good health holds her own.

Next to the good health I should
wish, being a woman, for the genius
for small things—to be eternally in-
terested in small-beer gossip—what
the neighbors next door have for din-
ner; how many ruffled petticoats Mrs.
Smith has in wash; to be thrilled to
my marrow about the cut of a sleeve
or the hang of a skirt; to be able to
be utterly absorbed in my own house,
my own church, my own Browning
society. And, above all, I should pray
the gods to grant me that I might al-
ways think my particular John the
oracle of the world.

Then I should ask to love. For a
woman not to have been loved is a
misfortune, but for her not to love is a
tragedy. She may weary of the
noblest love of the noblest heart; she
may find a thousand imperfections in
the most chivalrous lover, but her own
love knows no tiring, and it glids the
meanest object and turns it into a god.
In love and in service to the adored
one, a woman finds her highest happi-
ness; and, if she has of her own a
man and a child on whom to lavish her
affections, she does not need to ask
anything else of fate. She has all
wishes bunched in one.

CORN DODGERS—Corn dodgers
should be made from the soft,
ground, white corn meal. Mix three
cupfuls of meal with a teaspoonful
of salt, then add just enough actual-
ly boiling water to make a stiff paste.
Quickly mold into oval cakes, lay
well apart in greased pans, drop a
bit of butter on top of each and
bake crisp and brown in a quick
oven. Serve very hot.

BOOG STewed WITH ONIONS—
Select the small white onions, peel
one quart, parboil for five minutes,
then drain, cover with equal quanti-
ties of water and milk and simmer
very gently until tender, allowing the
liquid to evaporate until but little is
left. When done turn them into a
pint of white sauce, add six hard
boiled eggs cut in quarters and sim-
mer gently for ten minutes. When
in the serving dish sprinkle with
cheese.

BURNING ITCHING ECZEMA

Tortures It Inflicts Can Now Be Es-
caped.

Try This Remedy at Our Risk

It is a pleasure to be able to point
out a way for those who are now tor-
tured with the terrific itching and
burning of eczema and such skin
eruptions, to obtain comfort and a
smooth healthy skin.

Our new remedy, Saxon Salve,
which you have probably heard of
already from some of your friends,
soothes the skin quickly, stopping
the itching and pain. And it also
saturates the skin through and
through with its powerful healing
and antiseptic properties so that
marked improvement is soon seen
and the eruption is driven away.

We guarantee that Saxon Salve
will please you. Though mild and
soothing, it is as good for grown
persons as for children. If you have
a skin disease of any kind try it—
you get your money back if not sat-
isfied. Blackmer & Tanquary, Drug-

Jury Visits Scene of Accident Wednesday Evening and the
First Testimony Taken This Morning in Allen-Smith Case.

After the jury had been impaneled in the Allen vs. Smith \$20,000 damage case, Wednesday afternoon, court was adjourned until the jury, in a body, visited the scene of the accident and carefully inspected the grounds, after which they returned and were dismissed until Thursday morning.

The jury selected is composed almost wholly of farmers, and they are: Eltzer Huffman, Painter; William Boyer, Perry; J. W. King, Wayne; C. L. Pavey, Greene; S. E. Shultz, Jefferson; F. M. Mark, 1st ward; J. W. Howard, Jeffersonville; G. E. Straley, Jefferson; H. E. Brakefield, Perry; R. W. Jones, Perry; J. H. Kessler, Jefferson and Add Day, Wayne.

Thursday morning at nine o'clock the trial was commenced by placing Frank M. Kennedy on the stand. He explained the location and described the map so that all might know exactly where the accident occurred as well as be familiar with the spot itself.

The plaintiff, Frank M. Allen, was then placed upon the stand, and the direct examination begun. This continued until court adjourned for the noon hour.

When court was resumed after dinner the cross-examination of the plaintiff commenced, with Humphrey Jones the cross-examiner. Attorney

John Logan had made the direct examination.

Quite a number of spectators were in the court room.

Dale Remodeling Many Changes

Carpenters and painters are busily engaged in remodeling portions of the large first floor business rooms of the Will E. Dale store, and the furniture department on the first floor will be transferred to the west room, while the stove department will occupy the east room.

The immense cabinet on the west side of the room has been moved to the long narrow room under the broad stairway on the east side of the building, and other changes made, among them being the enlarging of the office and making it more convenient.

George Inskeep and Fred B. Creamer Purchase Valuable
Property on High Street, Columbus.

Messrs. George Inskeep and Fred B. Creamer of this city have just purchased a block on South High street, near the Court House in Columbus, and some \$60,000 changed hands in the deal.

The property purchased contains six buildings, ranging from two to five stories in height, and fronts 171 feet on High street, and is 187 feet in depth. The first floors are business houses and the other floors are used for flats. The purchase was made from David C. Beggs.

The work of improving the property will commence within a short time, and a large banking institution is already negotiating with the new owners for the erection of a modern building. With proper improvements the property will soon become a very valuable investment.

"Candy" Frank Smith

Taken to Columbus Workhouse on Thursday Morning by Officer Haggard.

After more than two weeks confinement in the confinement in the county jail while his friends have been making efforts to raise the price of his freedom, Frank Smith, the hot lunch and pop corn man, was escorted to the Columbus work house by Officer Haggard Thursday morning, to serve a sentence which has been hanging over him upon the old gambling charge.

Smith was given his choice of paying the old fine against him and

working on the streets until January first, or going to the works. He had his friends to make an effort to secure the amount necessary, and they were given until Thursday morning to show up with the money. They failed to show up, and the commitment papers were given to the police with instructions to take Smith up to the rat trap factory. This was done. Smith was also bound over under \$300 bond for attempting to contribute to the delinquency of a young girl.

Taylor Returned To Reform School

Clarence Taylor, colored, who has been under parole from the Boys' Industrial school in Lancaster, was taken back to that institution Thursday morning. Taylor has been more or less of a vagrant, and upon complaint of an officer of the institution came to this city and escorted him back to Lancaster.

Beattie Takes Sacrament and Protests His Innocence.

Richmond, Va., Nov. 23.—"I am innocent," Henry Clay Beattie, Jr., condemned to die at dawn tomorrow for wife murder, announced through the Rev. Dr. J. J. Fix, one of his spiritual advisers, that he would make no confession. In a formal statement Dr. Fix told of Beattie's declaration of innocence.

"I have to die some time and it might as well be now," the prisoner exclaimed. "I reckon there is no use putting it off. It would just make it harder for the old man."

Beattie took the holy communion, administered by his two spiritual advisers. It was the first time he had taken the sacrament since he was a small boy. He is a member of the Presbyterian church.

Arrangements were completed to bury Beattie's body, following his execution tomorrow, beside the grave of his young wife, for whose brutal murder he is about to pay the extreme penalty. A special permit for the burial was obtained from the city council.

Says He Killed Mrs. Beattie.

Cleveland, O., Nov. 23.—Full "confession" of the murder of Mrs. Louise Beattie was made in a letter to The Szabadsay, a Hungarian daily. The letter was signed simply "Rudolph" and was dated and postmarked Cleveland. The writer declares he shot Mrs. Beattie by mistake. Beattie had spoken to him roughly when he had asked for work at the Beattie home. He was on the road when Beattie's automobile passed, recognized Beattie and fired at him.

INSANITY PLEA MADE

By Murderer Gilsdorf at Chillicothe, and Murder Trial Ends Temporarily.

Charles Gilsdorf, the murderer of Gilbert Rieder will first be tried on a charge of insanity before he is tried for murder. Peter Blosser, attorney for the criminal, exercised his right to have the defendant tried on an insanity charge before any further action is taken in the murder trial, and the murder trial itself came to an abrupt end until the insanity plea is tried.

This action was taken after Attorney Blosser had permitted the county to incur an expense of some \$400 in selecting a jury, and making ready for the trial. Blosser also made charges against Prosecutor Boulger which were false, and which caused him (Blosser) to be freely censured for so doing.

A special jury will be impaneled for the purpose of ascertaining whether or not Gilsdorf is insane, and if he is pronounced sane, which Prosecutor Boulger is confident will be done, he will again be placed on trial for his life, probably some time next week.

The affair is being watched very closely by all who are familiar with the circumstances.

Officer George Hamm of Chillicothe was in this city Thursday morning investigating certain matters surrounding the arrest of Charles Gilsdorf in this city shortly before he killed his brother-in-law in Chillicothe.

It is claimed that the murder was due to Rieder refusing to get Gilsdorf out of trouble here, and that Gilsdorf sought revenge in his death. A phone message to Rieder from this city, asking if he would pay Gilsdorf's fine, met with a point blank refusal, but Gilsdorf's sister, Mrs. Rieder, is said to have furnished the money for the man's release.

Permission Granted By State Board Baker Bond Issue

Authority was granted the Springfield & Washington Electric Railway company Wednesday evening by the public service commission, for the issuance of stocks and bonds for the extension of the road to this city, the amount of the stocks and bonds being \$500,000.

Under the authority granted the company will proceed to issue \$200,000 worth of stock to be sold at par, and \$300,000 of 30-year bonds to be sold at not less than 85.

This is the road owned by George W. Baker of this city, and it is now believed that little delay will be experienced in financing the line to Washington. Those in touch with the situation believe that in the early spring the extension work will be commenced.

An early consolidation with other electric roads would not be surprising in connection with the Springfield & Washington road, it is said.

THEY INJURE CHILDREN

Cathartics and Pills and Harsh Phys. ics May Cause Distressing Complaints.

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given. Ordinary pills, cathartics, and purgatives are too apt to do more harm than good. They sometimes cause griping, nausea, and distressing after-effects, and may actually injure the health, thus establishing a life-lasting annoyance.

We personally recommend and guarantee Rexall Orderlies as a safe and dependable remedy for constipation and associate bowel disorders. We have such faith in the virtues of this remedy that we sell it on our guarantee of money back in every instance where it fails to give entire satisfaction, and we urge all in need of such medicine to try it at our risk.

Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Rexall Orderlies not only relieve constipation, but help to remove the cause of this ailment. They also

25-Year Franchise Granted D. & X. Co.

A movement which may eventually mean a great deal to this city, took place in Dayton first of the week, when a new 25-year franchise was granted the Dayton & Xenia Traction Company.

If the road is extended to this city as recent plans and movements indicate, the action in granting the road a 25-year franchise is an important one.

The terms provide that the company is to pay the city of Dayton one-half of one per cent of its gross earnings up to June 30, 1913, and a half per cent, additional each year until 3 per cent is reached, to continue at that rate thereafter; ornamental poles; a new bridge over the race in the south end and 7 tickets for a quarter when other roads agree to such provision. The franchise has been up 18 months.

TO PROVIDE PEST HOUSE

Board of Health Takes Drastic Action to Care for Any Violators of Quarantine Regulations Which May Be Ordered.

Drastic action was taken by the local Board of Health Wednesday night at a regular meeting, when a resolution was passed instructing the Health Officer to provide a pest house for the confinement of all violators of private house quarantine in any cases that may arise in the future.

The records show that in years past a number of private house quarantines have been ignored and contagious diseases spread because of the quarantine violations. In establishing a pest house the violators of quarantine will be confined under guard and lock and key if necessary in order to enforce the law govern-

frequently overcome the necessity of constantly taking laxatives to keep the bowels in normal condition.

There is really, in our opinion, no similar medicine so good as Rexall Orderlies for the purpose to which it is directed, especially for children, aged and delicate persons. They are prepared in tablet form and in two sizes of packages; 12 tablets, 60c., 36 tablets, 25c., and 80 tablets, 50c. Remember, you can obtain Rexall R. medicines in this community only at our store—The Rexall Store, Blackmer & Tanquary.

Deer Supper

The big deer supper is the talk of the town.

The common expression is, "Sure I am going. I was at that bear supper last winter and I am going to the big deer supper this time." The big deer supper will be one of the greatest of the kind ever given in this city.

All desiring to go had better get their tickets early as they are going like hot cakes.

Those failing to attend will miss an opportunity of their lives. Don't forget the date and hour, Monday evening, November 27, from 5 p. m. until all have been served. Mr. Brownell says that the deer are the finest that he ever saw.

If our solicitors fail to see you in time, or for any reason you fail to secure a ticket, come anyway. You will be taken care of. We will have plenty for all who come.

Fritsch Sells To His Partner

The firm of Ferman and Fritsch, East Market street grocers, has undergone a change, Mr. Fred Fritsch disposing of his interests to his partner, Mr. Ed Ferman, and Mr. Ferman will conduct the business in the future.

Mr. Fritsch has not decided what he will take up, but will probably leave this city for one of the adjoining cities where he has an offer.

Left for Kenton To Confer Degree

Imperial Degree Staff, fifty strong and with a real live goat for their mascot, formed at their lodge room early Thursday morning and with banners flying and headed by the lodge goat, marched down Court St. to the D. T. & I. which they boarded for Springfield on their way to Kenton where a big meeting will take place tonight.

Every man was in his place, and the staff expects to bring back new laurels Friday after conferring the First degree in the presence of some 1500 Odd Fellows from all over central Ohio.

Arrangements for a special train fell through, and as a consequence the next best means of reaching Kenton was employed, and they departed on the D. T. & I. regular train connecting at Springfield with the Big Four.

Agriculture In Schools

District Supervisor of Agricultural Education Visits Schools In Fayette and is Well Pleased With Progress.

Mr. L. S. IVINS, of Lebanon, supervisor of agricultural education under the direction of State School Commissioner Frank W. Miller, is in this county in the interests of promoting the study of agriculture in the public schools, and was accompanied on his visits to a number of the townships by Superintendent of the Union township schools, J. M. Hartman.

Under the Cahill law it is made compulsory to teach agriculture in all schools in the rural districts and in schools in all towns, and Mr. Ivins is one of four assistants to the state school examiner and has 21 counties under his supervision. He has spent a great many years in teaching agriculture in Lebanon University and in elementary schools.

Previous to the adoption of the Cahill law only 450 high schools in Ohio out of over 900 and about one-half of the township schools were teaching the branch.

Mr. Ivins stated that of the many schools he had visited in Fayette county, the children were delighted with the study, and the teachers were also well pleased with it. Chil-

dren who have been careless, or apparently could not learn rapidly in many studies, have shown an aptness to grasp the law branch which is both pleasing and surprising.

Some few of the schools were found rather backward on the study owing to lack of supplies. The books furnished the schools for teaching agriculture, are prepared in a most commendable manner, and are meat for teaching the science of agriculture and not the art of farming. It brings out the advantages of rural life, and helps keep the boy and girl on the farm. It also gives them a general knowledge of farm management.

Ohio was the 17th state to adopt agricultural studies in the schools, and wherever tried the best of success has resulted. The difference in the study of agriculture in the schools may be seen from the following report of the wheat yield the past season, the foreign countries having been teaching agriculture for many years: United States, average yield in bushels per acre, 14 1-2; Germany, 28; England, 32 and Belgium, 40.

INSANITY PLEA MADE

By Murderer Gileford at Chillicothe, and Murder Trial Ends Temporarily.

Charles Gileford, the murderer of Gilbert Rieder will first be tried on a charge of insanity before he is tried for murder. Peter Blosser, attorney for the criminal, exercised his right to have the defendant tried on an insanity charge before any further action is taken in the murder trial, and the murder trial itself came to an abrupt end until the insanity plea is tried.

This action was taken after Attorney Blosser had permitted the county to incur an expense of some \$400 in selecting a jury, and making ready for the trial. Blosser also made charges against Prosecutor Boulger which were false, and which caused him (Blosser) to be freely censured for so doing.

A special jury will be impaneled for the purpose of ascertaining whether or not Gileford is insane, and if he is pronounced sane, which Prosecutor Boulger is confident will be done, he will again be placed on trial for his life, probably some time next week.

The affair is being watched very closely by all who are familiar with the circumstances.

Officer George Hamm of Chillicothe was in this city Thursday morning investigating certain matters surrounding the arrest of Charles Gileford in this city shortly before he killed his brother-in-law in Chillicothe.

What Real Love Is

Love letters! Well, if I wanted to get hold of a bunch of real love letters you think I'd hunt through the mail of a little eighteen-year-old pretty miss with a head full of vanity and a heart full of herself?

No, indeed. I'd hunt around in the personal effects of that good, comfy, middle-aged woman you see down there in the centre aisle. Pretty? Not a bit. Lovable, yes, and loving, too, and well beloved if the expression of her happy eyes tells anything like the truth.

She's away from her husband just now. The curtain is down. What's that she is reading between the acts? Not the bill of the play. It's a letter, typewritten, too. Don't you dare to slip a glance at what is written on that unromantic office paper. It is very likely a love letter, and a love letter that means something, too, little Miss Incredulous, something that you'll never know a thing about till you've been married ten years and found out what the real love of a real man means.

The man who wrote that letter to that woman doesn't love her because he thinks she's pretty, or because she was the "sweetest dresser at the hotel" all summer, or because "all the other fellows are after her." He loves her because she's herself, and he knows it, and he realizes that she's the one best friend he has in all the world, and he knows that she doesn't care whether he's as handsome as he was once or as gay or as rich as he might be, or as big a success in the business world as the man she might have married ten years ago and didn't.

He knows that the woman who looks so ordinary and commonplace to you and to me would cut her right hand off at the wrist to save him a day's real sorrow, and he knows that she'll stand by him through thick and

through thin, and love him all the harder for all the trouble that comes to them together.

What! look at you—seriously, little Miss Sweet and Twenty! Pshaw, don't you delude yourself. A man of that age isn't looking for trouble; he's looking for comfort and for confidence, and for trust, not for sensations. He has had all of them long ago. He is looking not for uneasy vanity, but for love, real love, love that means something besides a bunch of roses and a couple of theatre tickets, and he has found it, and found it right there with that ordinary looking woman across the aisle, and that's what he's telling her in that prosaic-looking letter.

What do you suppose that man writes of in this particular letter? The beautiful eyes of the woman or her little fluttering white doves of hands?

Not a bit in the world. About the time this boy was sick and the woman stood over him and nursed him back to life and hope and health? Why, when she did that the man saw her day after day in a faded old wrapper when she hadn't time to even think about her hair, much less to "do it."

And he doesn't remember a thing about how she looked, except the expression in her eyes when she told him that the boy would live because she intended to make him live in spite of all the doctors and all the prophecies on earth.

And he did live, the boy with his father's eyes and the mouth like his mother when she was a girl, and every time the man looks at that boy, the pride of his heart, he thinks of the mother who bore him.

Love her? Why, poor little Miss Fuss and Feathers, you may know something about some such love some day. I hope you will. You look a sweet, little thing enough. But now why couldn't even spell the first letter of its name.

Love letters from the married man to his wife! Laugh about them all you want to, ladies and gentlemen of the vaudeville sketches. We'll laugh too, and while we're laughing we'll lay our hands against a simple little dress and pretend to be fastening a collar or something—just to hear the rustle of the paper under there—the letter from the husband at home.

The real love letter from the real sweetheart. That's why we can afford to laugh so hard at your jokes about the married man and the woman he really loves.

Salt Rising Bread

I have never seen this recipe in the paper and hope to get a prize on it. It is delicious and cannot fail if directions are followed. On the night before take one-half cup corn-meal, pinch salt and sugar, seal to the thickness of mush with milk heated to boiling point. Let stand over night. Next morning take one cup milk, put in a one gallon jar; put into this three cups of water heated to boiling point. Cool this with cold water to 108 degrees. Use milk thermometer to get correct temperature. Stir in flour as thick as any other batter and stir in one teaspoon salt, one teaspoon sugar and stir in starter from night before. Then put jar in dish of water that is 108 degrees and let rise; then mix stiff, must rise at least one and one-half inches, and mold into loaves, butter top well, let rise again then bake in moderate oven one hour and ten minutes. Delicious.

BUTTERMILK SCONES—Buttermilk scones need three pints of flour mixed with one teaspoonful of soda, one teaspoonful of sugar and two-thirds of a teaspoonful of salt, then sifted. Rub in three tablespoonfuls of shortening and mix to a soft dough with fresh buttermilk. Turn on a floured board, roll an inch, cut in triangles and place slightly apart on a greased pan. Brush the tops with sweet milk and bake in a quick oven.

Wash Cloths

Would you like to hear about my new wash cloths that cost 2 cents apiece, wear better and are nicer than any that can be bought at from 10 to 15 cents? I buy a yard of plain, white serpentine crepe, which comes a yard wide, at 18 cents, fold it three times each way, cut it, hem the cloths and sew a tape hanger on each. They are superior to any rubber sponge, wash cloth or anything that can be bought for the purpose.

**Scold Your Husband
It's Your Privilege**

"A WIFE HAS A perfect right to scold her husband if he has been misbehaving, and any judge in any court would be likely to take that view. The husband, as a rule, objects only when he knows that his wife is perfectly right, and then he usually blames it on her relatives."

This is the philosophy of Miss Rose McQuade, probation officer at the Court of Domestic Relations, whose business it is to have married people tell their troubles. Miss McQuade talked with interest of the recent decision of a Kansas judge who decided that a wife's scoldings did not constitute grounds for divorce.

"Of course, they don't," declared Miss McQuade, vigorously. "Why whose business is it to scold a man if it is not his wife's? There are mighty few men who are so perfect that it is unnecessary at any time to point out to them that they are misconducting themselves and it is certainly a wife's business and duty to do that. She is the one that suffers—she and her children."

"Certainly no one expects a woman to sit meekly at home and have her children go without necessities because she thinks that she hasn't the right to tell her husband that he is not doing his duty. And I have always found—with very few exceptions—that when a wife scolds a man a little questioning of the man himself will generally bring out facts that make him admit the scolding was coming."

"I have talked to scores and scores of husbands in my little office here and I have observed two very curious things. One is that the scolding which most enrages a man is the one that he knows absolutely he ought to get. Probably it is because a sense of shame is working on him at the same time. Another is that a man seldom blames his wife for the trouble."

"He will tell all about how his wife has nagged and scolded him because he drank too much or didn't give her enough of the money to run the house, but generally there runs all through the story the refrain that he doesn't blame her. It is always the fault of the wife, mother or sister or aunt or some other member of her family."

"We would get along all right if it wasn't for my wife's sister or my wife's mother," is a sentence I have heard hundreds of times.

"And the man really believes it. He doesn't understand that his neglect or misconduct or abuse has driven her to her own family for counsel and sympathy. She has been abused or neglected and they naturally sympathize with her and help her all they can. Then he blames them for all his troubles. This is the real explanation of most of the 'interfering' of a wife's relatives."

"In that connection there is another singular thing. There is the most marked difference in the attitude of the wife's mother and the husband's mother toward the family."

"The mother of the man never seems to fully grasp the idea that he is an inseparable part of another home. He is still her boy to her, and his wife and children are more or less in the background. When he has trouble with his wife she is never able fully to look at it as a wife and woman. She is too ready to side with her son regardless of the merits of the case because she has always known that that woman was not good enough for George."

"The much abused mother of the wife is usually the rock to which the younger household is anchored in time of real trouble. She is the one that cares for the children when the mother is ill. She is the first to go into her own pocket to help in time of financial stress. It is not strange that she should feel that she has the right to give her daughter aid, counsel and sympathy when they are sought."

French Custard

In this the sauce as well as the cream must be cold. Put one quart of milk in a double boiler; beat the yolks of four eggs with ten ounces of sugar until light, add them to the hot milk and turn the mixture into the double boiler and cook as you would a soft custard, just a moment. Take from fire and strain. Add two teaspoonfuls of vanilla extract. When this mixture is icy cold add a pint of cream and freeze. Golden sauce—Cover a level tablespoon of granulated gelatin with four tablespoonfuls of cold water. Soak a half hour. Put a pint of milk in a double boiler, beat together the yolks of three eggs and a half cup of sugar, add a little of the hot milk and then cook the whole as a soft custard until it sticks to a knife blade, add the gelatin, take from fire, add teaspoon of vanilla and pour, while hot, into the well beaten whites of the three eggs, beating all the while. Brandy or sherry may be added if one uses wine.

Unfermented Grape Wine

Pick over grapes, rejecting all unsound ones; almost cover with cold water; heat slowly (mashing), and cook until all juice is out. Drain in jelly bag. Measure juice and add one-third cup of sugar to one quart grape juice. Boil four minutes, bottle and seal.

STUFFED PEPPERS—Peppers used for stuffing are of the mildest variety, many of the Spanish type being so slightly pungent that they may be freely eaten, providing the seeds and inner white veins are discarded. When to be stuffed they may be split lengthwise or a piece cut from the stem end, according to shape. After removing the seeds fill with the stuffing; this may be either crumbled bread, boiled rice or hominy with or without chopped cooked meat, the whole being well seasoned and slightly moistened with stock or gravy and enriched with a little melted butter. Arrange on shallow pans, pour in a few spoonfuls of boiling water or stock (to prevent burning) and bake in a moderate oven for from 20 to 25 minutes.

Corn at its Best

"Ole Virginny" corn pone? Ripe, ju' corn on the cob? Both mighty good—but they're not in it with Kellogg's. Just imagine ripe, sugar-sweet corn daintily flaked to light, golden films of toasted corn. That's corn at its best—that's Kellogg's. Have it for tomorrow's breakfast, sure.

"Nurse," moaned the convalescent patient, "can't I have something to eat? I'm starving!"

The nurse, who had just enjoyed a big breakfast, smiled amiably.

"Yes. The doctor said you could start taking solids to-day. But we must begin slowly," she added, as she held out a teaspoonful of tapioca. "We must only advance by degrees."

He sucked the spoon dry, and felt more tantalizingly hungry than ever. He begged for a second spoonful. But she shook her head, saying that everything at the start must be done in similar small proportion.

Presently he summoned her again to his bedside. She hurried to him, and asked what he required.

"Nurse," he gasped, "bring me a postage stamp. I want to read."

PRIMITIVE REASONING.

"Did you sell your vote?"

"No, siree. I voted fur that feller cause I liked him."

"But I understand he gave you \$10?"

"Well, when a man gives you \$10 'tain't no more'n natural to like him. Is it?"—Washington Star.

A RED-LETTER DAY.

Cowboy Editor—This has been a lucky day for me.

Wife—Has some one been in to pay a subscription?

Editor—Well, no, it wasn't as lucky as that; but I was shot at and missed.

HIS REASON.

"I never eat rice," said "Hennery" Peck, avoiding the gaze of his wife, "I cannot but feel its relation with one of the greatest mistakes of my life."

The Villain Foiled.

The town hall was packed and the village audience followed the heroine's tribulations with bated breath. She was having a terrible time. In the space of five short minutes she was nearly run over by a mad horse, bitten by a mad dog and drowned in a mad mill race. And she escaped these things only to fall finally into the hands of the vaunting villain.

The audience strained forward as the villain led her to a lonely cave and cast her into the presence of a huge gorilla.

"R-r-revenge at last!" muttered the villain.

"Oh, what shall I do?" cried the heroine as the gorilla approached with a mad, violent grimace. "Oh, what shall I do?"

It was too much. The strain could not be borne any longer. In a frenzy of excitement a member of the audience rose from his seat, clapped his hands to his mouth and shouted Answers.

Apple Butter

Reduce cider one-half by boiling. When it is time to make the apple butter, pare, core and quarter the desired quantity of apples, allowing one-third of sweet to two-thirds of sour apples. Have the cider boiling rapidly, throw in the apples and keep constantly stirring until they are cooked and reduced. Then throw in more, and so on, until you have the mixture the desired thickness. Cook slowly, skimming whenever necessary and stirring constantly. When it begins to break—that is, when the apples separate from the cider, add to each bushel of apples two pounds of sugar and a little cinnamon and continue the cooking until by trying a small quantity in a saucer it is found to be a smooth mass and does not separate. It requires as a rule, half a bushel of sweet and one bushel of sour apples to each gallon and a half of boiled cider.

VALUABLE ASSET.

Nothing is sacred nowadays. A bankrupt was telling the court how poor he was and how much money he had lost by commercial depression, when the official receiver remarked: "You have very good teeth, Mr. Stylis."

"Yes," innocently replied the bankrupt, "they are very sound."

"How much did you give for them?"

That was the next question and it was a poser.

"Must I answer such a rude question?" asked the bankrupt, appealing to the Judge.

"Certainly," answered the man of law.

"Well, I gave fifty guineas for them."

"Ah, very good," said the official receiver; "then hand them over for the benefit of your creditors."

A Mistake.

Circulation Man—That woman who wanted her name kept out of the paper yesterday has stopped her subscription.

Editor—Why, we kept her name out.

C. M.—That's the answer.

Silly Willie.

"What's little Willie crying about?"

"Because he doesn't get a holiday on Saturday, and his brother does."

"But why doesn't Willie get a holiday on Saturday?"

"Because he isn't old enough to go to school yet."

Dish Towels.

New crash toweling is always too stiff to wipe dishes easily, so at first it is a good plan to make it into roller towels, twice the size of dish towels, and after they have been laundered enough times to make them quite soft, cut them in two and hem for dish towels.

The dish towels, in turn, make good dish rags. When holes begin to appear cut each towel in two, double each half, and stitch around the edge and through the center for strength. They are just the right size and last a long time.

MISUNDERSTOOD.

The hours were flying by, and still Aigy the bore remained with her. "Do you like music?" she inquired listlessly.

"Yes," he replied, "I am always carried away by music."

She flew to the piano and played several airs. Then she turned and looked at him.

"You are not gone yet?"

"No," he answered.

"But you told me that music always carried you away."

"Yes," he retorted, "but I said music."

No Wonder.

Mrs. Baye. She is simply mad on the subject of germs, and sterilizes or filters everything in the house.

"How does she get along with her family?"

"Oh, even her relations are strained."

What Real Love Is

Love letters! Well, if I wanted to get hold of a bunch of real love letters do you think I'd hunt through the mail of a little eighteen-year-old pretty miss with a head full of vanity and a heart full of herself?

No, indeed. I'd hunt around in the personal effects of that good, comfy, middle-aged woman you see down there in the centre aisle. Pretty? Not a bit. Lovable, yes, and loving, too, and well, beloved if the expression of her happy eyes tells anything like the truth.

She's away from her husband just now. The curtain is down. What's that she is reading between the acts? Not the bill of the play. It's a letter, typewritten, too. Don't you dare to slip a glance at what is written on that aromatic office paper. It is very likely a love letter, and a love letter that means something, too, little Miss Incredulous, something that you'll never know a thing about till you've been married ten years and found out what the real love of a real man means.

The man who wrote that letter to that woman doesn't love her because he thinks she's pretty, or because she was the "sweetest dresser at the hotel" all summer, or because "all the other fellows are after her." He loves her because she's herself, and he knows it, and he realizes that she's the one best friend he has in all the world, and he knows that she doesn't care whether he's as handsome as he might be, or as big a success in the business world as the man she might have married ten years ago and didn't.

He knows that the woman who looks so ordinary and commonplace to you and to me would cut her right hand off at the wrist to save him a day's real sorrow, and he knows that she'll stand by him through thick and

Salt Rising Bread

I have never seen this recipe in the paper and hope to get a prize on it. It is delicious and cannot fail if directions are followed. On the night before take one-half cup corn-meal, pinch salt and sugar, scald to the thickness of mush with milk heated to boiling point. Let stand over night. Next morning take one cup milk, put in a one gallon jar; put into this three cups of water heated to boiling point. Cool this with cold water to 105 degrees. Use milk thermometer to get correct temperature. Stir in flour as thick as any other batter and stir in one teaspoon salt, one teaspoon sugar and stir in starter from night before.
